

Safety Data Sheet-DOMINANT BATHROOM CLEANER

1. IDENTIFICATION OF MATERIAL AND SUPPLIER

PRODUCT NAME: G.D. “DOMINANT”

Synonyms: None

Recommended use: Used to remove scale deposits, rust and uric acid build up from toilet bowls and urinals. Do not use on painted or laminated surfaces.

Manufacturer: G. D. PRODUCTS

ABN: 330 748 999 06

Street Address: 63 Old Maryborough Rd PIALBA 4655

P.O. Box 1000 HERVEY BAY Q 4655

Telephone: (07) 4124 6577

Facsimile: (07) 4124 7550

Emergency telephone number: 0412 246 748

POISONS INFORMATION CENTRE AUSTRALIA Ph: 131 126
NEW ZEALAND Ph: 03 474 7000

2. HAZARDS IDENTIFICATION

Not hazardous according to criteria of the Australian Safety and Compensation Council.
Not classified by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by road or rail.

RISK: Although no risk or safety phrases have been allocated we recommend the following as good workplace safety practice.

Risk-phrases: May irritate eyes and skin if contact is prolonged or repeated.

Safety-phrases:

Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable gloves and apron when decanting.

SIGNAL WORD-DANGER

GHS CLASSIFICATION-category 3

Product name: G.D. “DOMINANT”
Revised Version 01.07.2021

Safety Data Sheet-DOMINANT BATHROOM CLEANER

3. COMPOSITION/INFORMATION ON INGREDIENTS

CHEMICAL ENTITY	CAS No	PROPORTION W/V %
Ortho-phosphoric Acid	7664-38-2	10 - < 30%
Ingredients including water determined to be non hazardous		to 100

4. FIRST AID MEASURES

Ingestion: Rinse mouth with cold water. Do NOT induce vomiting. If available, give large quantity of water. Obtain medical attention.

Eye contact: Immediately flush with lukewarm, gently flowing water for 15 minutes. Remove contact lenses if present. Obtain medical attention.

Skin contact:

Flush with water until skin is no longer slippery. Obtain medical assistance if symptoms persist.

Inhalation:

If inhaled, remove from contaminated area. Give mouth-to-mouth resuscitation. Resuscitate in a well-ventilated area. Obtain medical attention immediately if there is difficulty in breathing.

Notes to physician:

The product is a blend of Phosphoric acid and surfactant. Suggest immediate intubation and gastric lavage due to foaming issue.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media:

If material is involved in a major fire use water fog (or if unavailable fine water spray) to keep drums cool. Use appropriate methods to extinguish surrounding fires such as foam, dry agent (carbon dioxide, dry chemical powder) to extinguish fires.

Specific hazards:

Hot liquids may scald if containers burst in large fires Wear suitable protective gear.

Safety Data Sheet-DOMINANT BATHROOM CLEANER

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Clean up spills promptly to avoid accidents. Cover with absorbent material to remove excess.

Wear full protective gear to prevent skin contact.

If small amounts absorb into diatomaceous earth, sand, earth.

If larger amounts, contain liquid to prevent run off. Transfer to plastic containers using plastic scoops and funnels.

7. HANDLING AND STORAGE

Precautions for safe handling:

Wear water resistant clothing, chemical resistant boots and gloves with eye protection. Avoid skin and eye contact. Handle using good industrial hygiene practices. Wash contaminated clothing and washable equipment before storage or re-use.

Storage:

Store according to local, State or Federal regulations as applicable. Keep out of reach of children. Store in a cool, dry place and out of direct sunlight. Store away from foodstuffs. Keep containers closed when not in use.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National occupational exposure limits:

The value assigned for this specific material by the Australian Safety and Compensation Council is TWA of 2 mg/Cubic metre as a maximum as for nuisance mists.

Exposure Standard (TWA) is the time –weighted average airborne concentration over an eight hour working day, for a five day week over an entire working life. According to current knowledge these concentrations should neither impair the health of, nor cause undue discomfort to nearly all workers.

These exposure standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. Exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity

Engineering measures:

Control to below quoted Exposure Standards. Use with local exhaust ventilation. Keep containers closed when not in use. Do not smoke.

Personal protection equipment:

Avoid contact. Gloves, eye / face shield and plastic apron if risk of splashes. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

Safety Data Sheet-DOMINANT BATHROOM CLEANER

9. PHYSICAL AND CHEMICAL PROPERTIES

Form/Colour/Odour: liquid, deep blue with pleasant odour.

Solubility: completely miscible with water.

Specific gravity (20°C): 1.13

Melting point (C): < 0

Flash Point (°C) Closed cup: not flammable

Vapour Pressure (20°C)mm Hg: N/D

pH at use dilution (1%): 1-2

pH as supplied @ 25°C > 1-2

Rel. Vapour density (air=1): N/D

Boiling Point (°C): approx 100

Decomposition Point (°C): >65

Flammability Limits (%): not applicable

N/D = not determined. N/R =not relevant.

10. STABILITY AND REACTIVITY

Stability: Does not polymerise. Keep away from hypochlorites. Keep containers in a cool dry place and closed when not in use to prevent contamination.

11. TOXICOLOGICAL INFORMATION

No adverse effects expected if the product is handled in accordance with this Safety Data Sheet and the product label.

Acute Effects:

Ingestion: May irritate the digestive system.

Eye contact: May irritate eye/s.

Skin contact: Prolonged or repeated contact may lead to contact dermatitis by defatting the skin.

Inhalation: May irritate the respiratory tract.

Long Term Effects:

Poison Information Centres in each State capital city can provide additional assistance for Scheduled Poisons: Phone: Australia - 13 1126.

Acute toxicity/Chronic toxicity:

The major health hazard is possible irritation of tissues.

LD50 (oral rat) not determined.

Safety Data Sheet-DOMINANT BATHROOM CLEANER

12. ECOLOGICAL INFORMATION

Ecotoxicity: Avoid release to the aquatic environment. Do not allow to enter septic systems.

Persistence/Degradability: Not expected to be persistent in the natural environment. Surfactant/s present are biodegradable to Australian Standards.

Mobility: Expected to be mobile in the aquatic environment.

13. DISPOSAL CONSIDERATIONS

Disposal methods: Large empty containers should be forwarded to an approved agent for recycling. Small containers should be tripple rinsed and sent to recycling or local waste disposal. Refer to State/Territory Land Waste Management Authority if in doubt.

14. TRANSPORTATION INFORMATION

Not classified by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by road or rail.

UN No: none allocated Proper Shipping Name: none allocated.

Segregation Dangerous Goods: Not to be sent with food or empty food containers, Hypochlorites, Class 5. Keep away from heat.

15. REGULATORY INFORMATION

Poisons Schedule: None allocated.

All of the constituents of this material are listed in the Australian Inventory of Chemical Substances.

UN none allocated Proper Shipping Name: None allocated.

16. OTHER INFORMATION

Literary reference:

Approved Criteria for Classifying Hazardous substances [NOHSC:1008(1999)] and HSIS.

Australian Code for the preparation of Material Safety Data Sheets 2003

National Exposure Standards [NOHSC:1003(1995)]

List of designated hazardous substances and HSIS [NOHSC:10005(1999)].

Standard for the Uniform Scheduling of Drugs and Poisons.

The Australian Code for the Transport of Dangerous Goods by Road and Rail.

Reason(s) For Issue – update of initial MSDS to 16 section format.

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product: and in particular how to safely handle and use the product in the workplace. Since G.D. PRODUCTS cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace i.e. a risk analysis.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact G.D. PRODUCTS.
